~SCRUBS~

Successful Careers Reaching Unlimited Boundaries for Students

The focus of the SCRUBS program is on pre-entry preparation of middle and high school students into nursing; and retention of pre-nursing students through mentoring, academic and financial assistance.

Although the focus of the program is on minorities, the SCRUBS program is open to any student who is interested in nursing and will receive program services including mentoring, tutoring, and other academic assistance.

As a participant of SCRUBS, you'll also enjoy opportunities such as the Future Nurses Club, A Day in the Life of a Nurse, A Day in the Life of a Student and our Health Careers camp.

If you would like to schedule a classroom presentation either for high school or middle school students, please contact Katoya Bledsoe, our SCRUBS Recruiter at 912-871-1590 or kbledsoe@georgiasouthern.edu.
